INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of the Charlotte City Directory, present to subscribers and the general public, this, the 1932 edition. This is the first Hill directory of Charlotte, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the continued growth of Charlotte's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Charlotte to the world.

The enviable position occupied by HILL'S directories in the estimation of the public, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Charlotte Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 25 to 72, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Charlotte. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In a large commercial and industrial center like Charlotte, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 73 to 536. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband.

THE NUMERICAL TELEPHONE DIRECTORY extends from page 537 to page 568.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 569 to 754. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 757 to 810. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

Municipal Publicity

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Charlotte, for business men, everywhere, realize that the city directory represents a community as it really is.

The Charlotte Directory Library

Through the courtesy of the publishers of the Charlotte City Directory, a Directory Library has been established recently in the offices of the Charlotte Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,
Publishers.

STATISTICAL REVIEW

Slogan—"Watch Charlotte Grow."

Form of Government—Managerial.

Population—82,675 (1930 U. S. Census). Total colored, 28,936. American born, 98%.

Area—19.43 square miles.

Altitude—780 feet.

Climate—Mean annual temperature, 60.2 degrees F.; average annual rainfall, 46 inches.

Parks—7, with total of 352 acres, valued at $500,800.

Assessed Valuation—$150,000,000, with $1.10 per $100 tax rate.

Bonded Debt—$7,500,000.

Financial Institutions—4 banks and 2 trust companies, with total deposits of $36,758,605.77 (Jan. 1, 1931), and resources of $47,774,193.13 (Jan. 1, 1931). Clearings for 1930, $582,392,778.99. Savings bank deposits, $2,453,346.78 (Dec. 31, 1930). 2 building and loan associations, with total assets of $15,500,000.

Postal Receipts—$788,094.41 (calendar year 1930).

Telephones in Service—22,500.

Churches—111, representing 18 denominations.

Building and Construction—Value of building permits, $2,605,128 (1930).

Industry—Chief industries of the city and surrounding territory: Manufacturing, 55%; agriculture, 45%. Approximately 167 manufacturing establishments, paying wages of $12,500,000 annually, and having products valued at $57,915,697 annually (1930 report).

Trade Area—Retail area has radius of 50 miles, and population of 583,000; wholesale area, radius of 75 miles, and population of 1,131,000.

Newspapers—2 dailies.

Hotels—8, with total of 1,250 rooms.

Railroads—4: Southern, Seaboard Air Line, Norfolk-Southern and P. & N. (last an electric line).

Airports—2 privately-owned; 1 of them 2 miles from center of the city, the other 2½ miles.

Old United States Mint Building

Amusements—Largest auditorium seats 5,000 persons. Total seating capacity of theatres, 6,900. 13 golf courses in the city and suburbs, including 1 municipal course.

Hospitals—5, with total of 385 beds.

Education—Queens-Chicora College. Johnston C. Smith University (for colored). 25 schools, including 1 senior high, 2 junior high and 1 parochial. Number of pupils in public schools, 16,311; in parochial, 185. Number of teachers in public schools, 451; in parochial, 8. Value of public school property, $3,712,272.42; parochial school property, $150,000; college property, $750,000.

Public Libraries—Main library and 4 branches, containing total of 75,000 volumes.

City Statistics—Total street mileage, 222.42, with 197.18 miles paved. Miles of gas mains, 95; of sewers, 186, and of electric street railway, 35. Number of water meters, 15,420; light meters, 20,544; gas meters, 7,187. Capacity of water works, 10,000,000 gallons; daily average pump, 7,000,000 gallons, with 180 miles of mains, and plant valued at $2,000,000. Fire department has 119 men, with 6 stations and 28 pieces of motor equipment. Value of fire department real estate and equipment, $175,000. Police department has 84 men, with 1 station and 19 pieces of motor equipment. Value of police department equipment, $10,065.

HISTORY

Charlotte, the county seat of Mecklenburg, named for Princess Charlotte of Mecklenburg-Schwerin, wife of George III of England, was incorporated as a town in 1768. The name Mecklenburg was given to the county in honor of the Queen's birthplace. The early settlers were made up of Scotch-Irish from Pennsylvania and Virginia; Germans from the same section; and English, Scotch, Germans, Huguenots and Swiss from the South by way of Charleston.

A court house, constructed of logs, had been built in the town a few years previous to its incorporation, and the county court was held there, which probably accounted for Charlotte being selected as the county seat. The court house was located at the intersection of the streets now known as Trade and Tryon.

Charlotte is famed as the place where the first Declaration of Independence was made on May 20, 1775.

Mecklenburg Declaration of Independence

"Resolved: That we, the citizens of Mecklenburg County, do hereby dissolve the political bonds which have connected us with the mother country; and absolve ourselves from all allegiance to the British crown, abjuring all political connection with a nation that has wantonly trampled our rights and liberties, and inhumanly shed the innocent blood of Americans at Lexington.

"Resolved: That we do hereby declare ourselves a free and independent people; that we are and of right ought to be a sovereign and self governing people, under the power of God and the general congress; to the maintenance of which independence we solemnly pledge to each other our mutual cooperation, our lives, our fortunes, and our most sacred honor.

"Resolved: That all officers, both civil and military, in this county, be entitled to exercise the same powers and authorities as heretofore; that every member of this delegation shall henceforth be a civil officer and exercise the powers of a justice of the peace, issue process, hear and determine controversies according to law, preserve peace, union and harmony in the county, and use every exertion to spread the love of liberty and of country, until a more general and better organized system of government be established."

Schools and Education

The people of Mecklenburg brought with them, in the settlement of their new country, the love of education. The first schools were conducted in the homes of the teachers or their patrons. Prior to the time of the American Revolution a number of school buildings had been erected. Queens College, or Museum, located within Charlotte, but within bounds of Sugar Creek Church, was the most noted school of Colonial times in Mecklenburg County. This college was located on a lot on South Tryon Street, where later, for many years, stood the Mecklenburg County Court House.

Churches and Religion

Seven churches of importance in Colonial days in Mecklenburg County were; Sugar Creek, Rocky River, Poplar Tent, Hopewell, Steel Creek, Providence and Centre. The congregations of these early churches were composed of men and women of strong character, high motives and dignified demeanor. To their influence throughout the community and upon succeeding generations may be attributed the fine type of Christian citizenship which has characterized the people of Mecklenburg County. Many members of the families composing these seven Colonial churches have gone out to other sections of the United States, particularly to the Southwestern and Middle-Western sections of the country, to establish homes and to carry with them the fine ideals of citizenship and Christian influence of their Mecklenburg ancestry. Numbers of the descendants of these Mecklenburg citizens who moved to other parts of the United States make pilgrimages to the venerable churches to read upon tombstones in the old burying grounds records of the lives of their forefathers. Upon anniversary occasions of these historic churches, all-day services are held and men and women from many distant states are numbered among the persons in attendance.

CHARLOTTE TODAY

Twenty years ago the South began to arouse from her bed of rich, deep traditions and bestir herself. There is a new South today—an onward-driving, pulsating South in industry, agriculture and finance.

Fundamentally successful industries develop best where abundant raw materials, mechanical power and stable population combine. Tremendously

North Tryon Street, Looking from the Square

rich in natural resources, power and raw materials, the South has strided forward with seven-league boots, and today, the economic advantages resulting from the development of her resources are leading the trail of industry Southward.

This is true, not only in the textile field, where advantageous conditions of power, climate, labor and living conditions at the source of raw materials have already transferred the center of industry from New England to the South, but in other lines of diversified manufacturing as well.

North Carolina today is the pacemaker of the South; it leads in textile manufacturing and hydro-electric power development, and Charlotte is the center of a textile manufacturing territory having 770 mills, operating over 10,000,000 spindles and consuming more cotton than any other section in the world.

It is the center of one of the largest hydro-electric developments in the United States, the total horsepower developed and in immediate prospect of developing being more than a million.

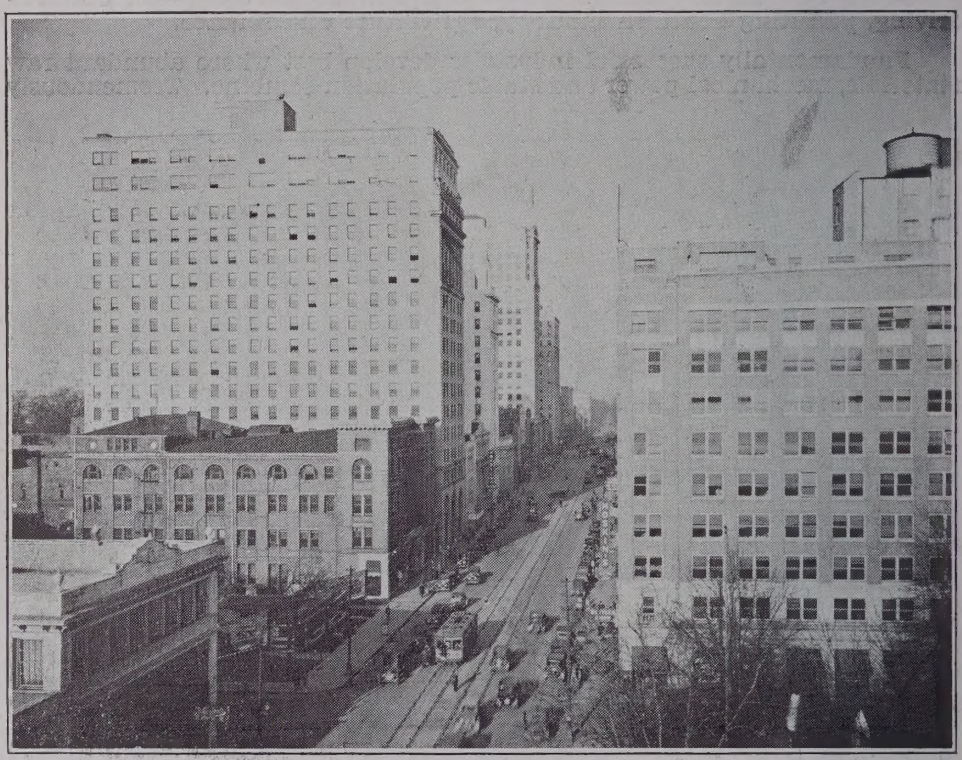
It is the largest center in the South for textile mill machinery and equipment, practically all the large companies in the United States and England handling their entire business in the South through Charlotte offices and plants.

It is the "Southern Market" for dyestuffs—laboratories and offices being maintained here by the leading dye corporations of the country.

Charlotte has annual payrolls of over 12 million dollars, from 167 widely diversified manufacturing and industrial plants.

Charlotte is located in the center of a territory recognized as the most rapidly developing industrial and commercial section in the South. The eyes of the commercial, as well as tourist, world are focused on the Piedmont Carolinas—the section of which Charlotte is the geographic and industrial center.

Hard-surfaced roads radiate from Charlotte in every direction. Eleven highways enter Charlotte. The National Highway crosses the North Caro-



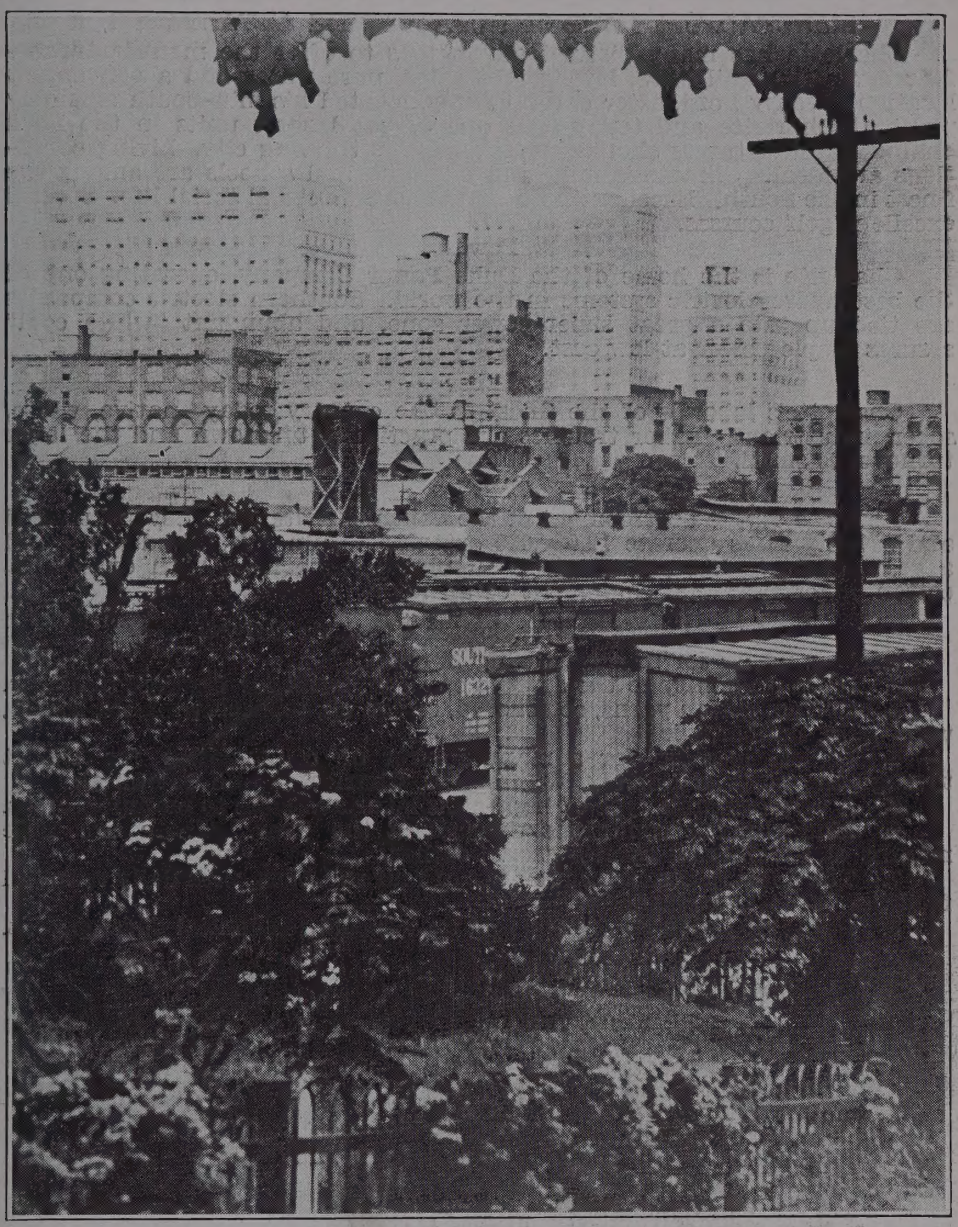
Charlotte's Financial District

lina State Highway at Charlotte. North Carolina has 9,000 miles of paved roads. Two million people can come to Charlotte from a radius of one hundred miles by automobile, transact business and return home the same day.

Charlotte is the distributing center of the Carolinas and is the natural radial point for the railroads of this section. Eight railway lines radiate from the city, this situation making possible a maximum of railway trackage for new industries of various kinds. There is an abundance of skilled and unskilled labor willing to give an honest days work for a reasonable wage. Charlotte is not disturbed by continued labor difficulties, strikes and labor agitation.

The quality of Charlotte's water is excellent, and the supply abundant, with an up-to-date filter plant, completed at the cost of $1,500,000.

Electricity, ample and at low rates, has been probably the greatest factor in the industrial and commercial development of Charlotte.



A Charlotte Skyline View

Charlotte's rapid growth as a manufacturing and business center has developed financial institutions commensurate with the demands of this rapidly-growing city and section which they serve.

Charlotte is live, aggressive, progressive.

Charlotte citizens cooperate in matters which promote the civic, commercial, religious and industrial welfare of the community.

Charlotte is a friendly city. It welcomes the newcomer, be he from the North, West, East or South.

Charlotte's Greatest Asset

The climate of Charlotte is outstanding, and can be classed as the city's leading asset. The United States Weather Bureau has made records of Charlotte's climate for the past 45 years and the fact is developed that the people of this city live the year 'round in a temperature which averages 60.2 degress. The mean maximum temperature is 69.5 degrees and the mean minimum is 50.9 degrees. The vicinity is favored in wind and rain, in sunshine and shadow. Agricultural activities may be pursued practically without interruption throughout the year.

MANUFACTURES AND MANUFACTURING ADVANTAGES

Charlotte has many distinct advantages to offer the manufacturer—four competing rail lines, low freight rates, pure water and a convenient location. Henry Ford, after careful study, located his mid-South assembly plant at Charlotte and today it is one of the largest units in the Ford chain. Manufacturers should investigate this thriving city. Living conditions are ideal. Climate is mild and pleasant, and schools are among the finest in the South. Excellent hotels and shops Cordial social life. Several excellent golf courses.

Power

Charlotte is the home of the Duke Power Company, operating one of the best hydro-electric systems in the world. Southern electric companies are tied up into a great super-power zone, and abundant "white coal" assures ample power at low cost.

Labor

Charlotte's labor is of the finest in the country today—native, white, sober, industrious. Labor troubles are practically unknown and the labor turnover is small.

Textiles

Here the textile development of the South is centering. Seven hundred and seventy mills operate 10,000,000 spindles within a hundred miles and a great business has grown up in supplying these mills with dye-stuffs, cotton, machinery and equipment of all kinds.

As a Manufacturing Center Charlotte Offers:

1. Low power for manufacturing purposes.
2. Close proximity to the sources of all material for finished products.
3. Cotton, cotton yarns, cottonseed, cotton oil, tobacco, peanuts, kaolin, wood pulp, lumber, etc.
4. Logical location for a manufacturer of commodities for export through the ports of Norfolk, Wilmington, Charleston and Savannah.
5. A very desirable type of high-class labor available to manufacturers.
6. Mild climatic conditions throughout the year. There are nine months of exceptional open-season weather.
7. The adequate transfer facilities of four railroads, with daily terminal facilities of 5,200 carloads.
8. Desirable living conditions and an unusual residential development.

Partial Air View of Charlotte's Business Section

Charlotte City Armory Auditorium

TRADE CENTER AND IDEAL DISTRIBUTION POINT

Charlotte has a greater population within a fifty-mile radius than Richmond; a greater population within a hundred-mile radius than Atlanta. Charlotte is the geographical and business center of the Carolinas.

	50-mile radius	100-mile radius
Richmond	468,000	2,124,000
CHARLOTTE	583,000	1,972,000
Atlanta	711,000	1,904,000

Charlotte's Trading Territory

Population of city and suburbs	approximately	100,000
Population within 25-mile radius	"	250,000
Population within 50-mile radius	"	600,000
Population within 75-mile radius	"	1,200,000
Population within 100-mile radius	"	2,000,000
Population within 150-mile radius	"	4,500,000

Charlotte offers the finest opportunities of today as the logical location for new industries, distributors, wholesale houses and business interests of every description that wish to take advantage of the manufacturing and trade opportunities in this rapidly-developing section, the richest trading territory in the South.

CHAMBER OF COMMERCE INVITES INQUIRIES

The Charlotte Chamber of Commerce extends an invitation to outsiders to visit this city and experience the Charlotte spirit of good-will and co-operation. The Chamber, with C. O. Kuester as business manager, gladly supplies information regarding Charlotte to all who write or call. The Chamber of Commerce also invites the outside public to tune in on WBT, Charlotte's new 2,500-watt radio broadcasting station.

When You Want to Know:

—where a person lives.

—what his occupation is.

—who lives at a certain number on a street.

—where a street is located.

—the correct spelling of a name.

—the officers of a corporation.

—the partners in a firm.

—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—you can quickly find the answer in the City Directory.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

The sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

But Your Directory Advertising *is before the entire community*

It directs buyers from *all* parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

Hill Directory Co., Inc.
Publishers
8 N. 6th St., 4th fl., Richmond, Va.

THE CITY DIRECTORY

represents the City and its institutions in every corner of these United States

Are You Properly Represented In It?

The Classified portion catalogues the professions and goods handled here

ARE YOU LISTED UNDER YOUR PROPER HEADING SO THE PROSPECTIVE BUYER CAN FIND YOU?

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1932

Copyright, 1932, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

A NORTH—North from 217 E 8th to 10th

THE CITY DIRECTORY

represents the City and its institutions in every corner of these United States

ARE YOU PROPERLY REPRESENTED IN IT?

The Classified portion catalogues the professions and goods handled here

ARE YOU LISTED UNDER YOUR PROPER HEADING SO THE PROSPECTIVE BUYER CAN FIND YOU?

"Think It Over"

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

When You Want to Know:

—where a person lives.

—what his occupation is.

—who lives at a certain number on a street.

—where a street is located.

—the correct spelling of a name.

—the officers of a corporation.

—the partners in a firm.

—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—you can quickly find the answer in the City Directory.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Association of North American Directory Publishers

524-528 Broadway **New York City**

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.
